

Julian Garcia

Front End Web Developer

julian-garcia.uk | catchafire.org | [linkedin.com](https://www.linkedin.com) | github.com

EXPERIENCE

Direct Line Group, Bromley, UK — UI Engineer

December 2018 – PRESENT

Frontend web development: HTML, SASS/CSS, JavaScript, TypeScript, Angular 8/9, node, git, bitbucket. Various projects, including standalone Angular 9 app to facilitate policy payments.

Inclusion Nudges, Remote — Freelance Web Developer

June 2018 – Present

Website construction using React based static site generator Gatsby alongside Netlify. Bulk of development work is in JavaScript, HTML and SASS. Includes integration with mailchimp, emailjs mail service and netlify-cms content management system.

Catchafire (Freelance), Remote — Volunteer WordPress Administrator

June 2015 - PRESENT

Multiple WordPress based website construction projects implemented on a voluntary basis, including custom theme development.

Uthini, Remote — Django Developer

November 2017 – November 2018

Implement a backend and API using Django. Set up backend PostgreSQL database, develop models, API and class based views using the Django web framework in conjunction with Python, HTML, CSS and template tags.

Direct Line Group, Bromley, UK — Senior SAS Developer

December 2005 – December 2018

Base SAS 9.1.3 on PC, Unix and mainframe platforms to perform searches, data extraction and generate reports. Includes the use of SQL and advanced SAS macros. Excel VBA coding to automate and formalise a procedure to log work requests.

Hewitt Associates, Hemel Hempstead, UK — SAS Programmer Analyst

September 2000 - Dec 2005

Mainframe SAS programmer to support existing processes in a JCL batch job environment for outsourced pensions and benefits for multiple clients.

EDUCATION

The Code Institute, Full Stack Web Developer Bootcamp, Diploma

April 2018 - October 2018

University of Southampton, BSc. Computer Science (2ii)

September 1997 - July 2000

22 Hazelwood House, Church Road, Bromley, BR2 0L
(+44) 7789 748489

julian.garcia.leoni@gmail.com

SKILLS

HTML, CSS, SASS, Bootstrap, JavaScript, Python, jQuery, Django, Flask, GitHub, Heroku, SAS, SQL, WordPress

VOLUNTEERING

My voluntary work as WordPress Administrator has resulted in various non-profit organisations saving an estimated total of \$120,000

RECOMMENDATIONS

Tinna Nielsen, movetheelephant.org, April 2018

“an absolute pleasure working with ... the most dedicated volunteer I have ever worked with.

Later we hired Julian to build our new community website”

Ed Harris, sclerodermainfo.org, April 2018 “I have

worked with a lot of talented people over the years. Julian would be in the top 1%. He is very skilled, very easy to work with, and did outstanding work on our new website”

Victoria Herrmann, theartcicinstitute.org, March 2016

“Julian was an incredible volunteer who took our organization to the next level... I would highly recommend Julian for any future web building and design projects”

AWARDS

Excellence for Customer Service, 2012

Consistently turning around good quality work at a fast pace
